

EVCT Security Camera System Waiver

This waiver acknowledges the presence and use of security camera systems at East Valley Children's Theatre (EVCT) facilities. It outlines the scope, access, and limitations of these systems in accordance with the EVCT Youth Safety & Supervision Policy.

Security cameras are installed in rehearsal spaces and at back entry/exit doors, focusing solely on doorways. These cameras are not used to monitor rehearsals, meetings, or any other business conducted within EVCT. Their primary purpose is to ensure the physical security of the building and the safety of all participants, staff, and volunteers.

Access to camera footage is strictly limited to the Artistic Director, the Business Manager, and the board-designated member of the Executive Committee. Footage may only be reviewed or saved when necessary to ensure safety or in response to specific incidents. All parents and guardians are hereby notified of the presence and function of these cameras. By signing this waiver, you acknowledge your understanding and acceptance of the camera system's role and limitations.

EVCT affirms that these cameras are not intended for surveillance of rehearsals or personal interactions. Their use is solely for building security and incident response.

By signing below, I acknowledge that I have read and understood the EVCT Security Camera System Waiver. I understand the purpose and limitations of the camera system and agree to its use as described.
